CONTINUOUS CUTTING MACHINE

Machine designed for making a **longitudinal cut** (centered or decentered), along a product, such as **pig's feet, beef legs, knuckleless, blocks, etc.**

Machine is loaded manually and the cut, which is continuous, is carried out using a bandsaw, in a completely safely process.

- A** Product loading
- B** Product output
- C** Sawdust unloading into a 600 x 400 x 200 mm meatbox

■ TECHNICAL INFORMATION

- ▶ Machine dim. (L x W x H) 1780 x 916 x h= 1876± 15 mm
- ▶ Max. height covers open (H) 2690 ± 15 mm
- ▶ Discharge height 998 ± 15 mm
- ▶ Power 3.5 kW
- ▶ Voltage 400V III 50/60 Hz

Product

- ▶ Max. height 335 mm
- ▶ Width range 30-215 mm
