

PW-SAW DCS

AUTOMATIC SAW WITH DOUBLE CUT SYSTEM (DCS) AND WEIGHT-CONTROL

Automatic saw with **double cut system in continuous**. It includes a scanning system that allows the machine to produce fixed-weight portions according to pre-established thickness and weight parameters.

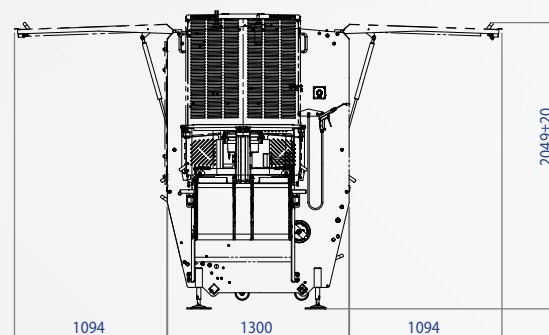

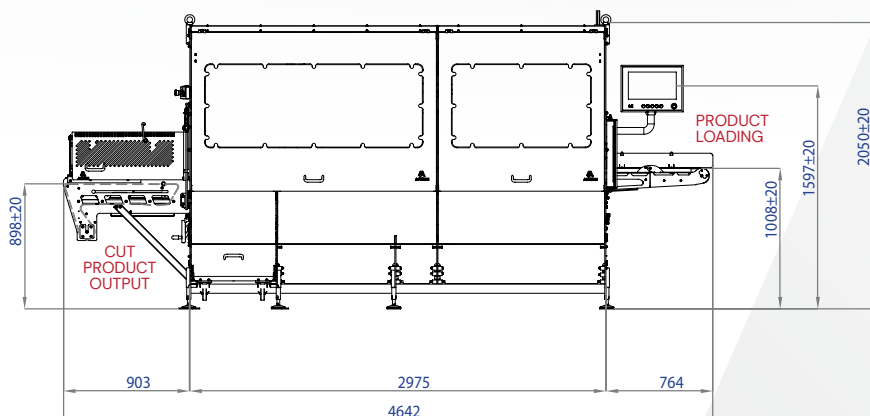

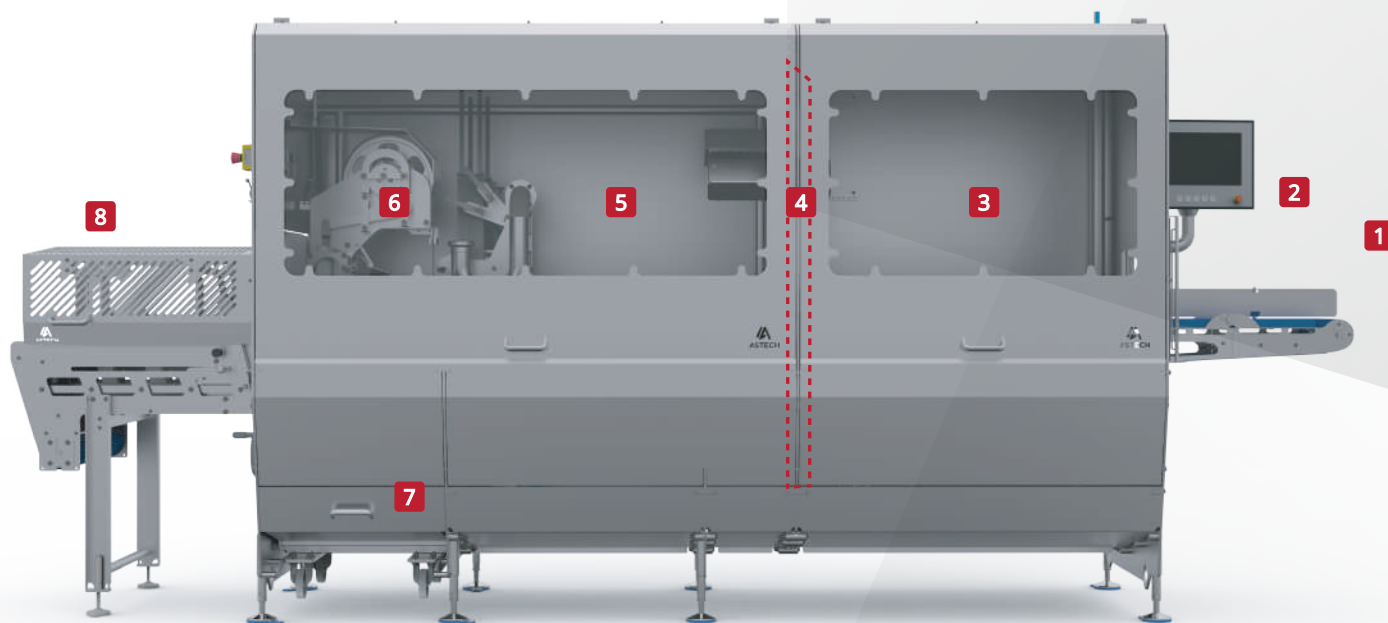

Advantatges

- ▶ Cutting of fresh and frozen meat and fish*, with and without bone.
- ▶ High-precision fixed-weight cutting.
- ▶ Continuous operation, no stoppages are required for loading product.
- ▶ Hygienic design for easy cleaning.
- ▶ Completely safe working process.
- ▶ Bandsaw Double Cutting System.
- ▶ Fully adjustable cutting speed.
- ▶ Versatile program, easy to use with the ability to store up to 50 different recipes.

**Following previous study.*

HIGH PRODUCTIVITY EFFICIENCY **PRECISION** HYGIENE **SAFETY** SAVING **QUALITY OF THE CUT**

Technical information

- 1 Product inlet belt
- 2 Control touch screen
- 3 Product gripping area
- 4 Product scanning
- 5 Product cutting area
- 6 Bandsaw
- 7 Sawdust collection
- 8 Final product outlet

- ▶ **Machine dimensions (L x W x H)**
4650 x 1510 x 2050 mm
- ▶ **Machine width with open doors (W)**
3500 mm
- ▶ **Max. product dimensions (L x W x H)**
750 x 250 x 250 mm
- ▶ **Compressed air**
Pressure 6 bar (10l/compl. cycle)
- ▶ **Saw blade**
2680 x 35 mm
- ▶ **Machine power**
10 kW
