

PW-SAW

AUTOMATIC SAW WITH WEIGHT CONTROL

Automatic continuous cutting saw. It has a **scanning system** that allows **cuts to be obtained at a set weight** according to pre-established thickness and weight parameters.

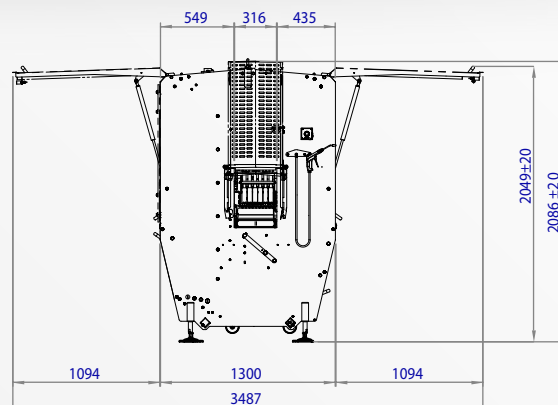

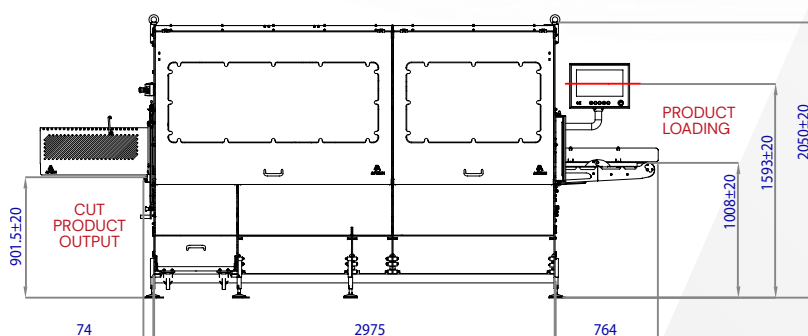

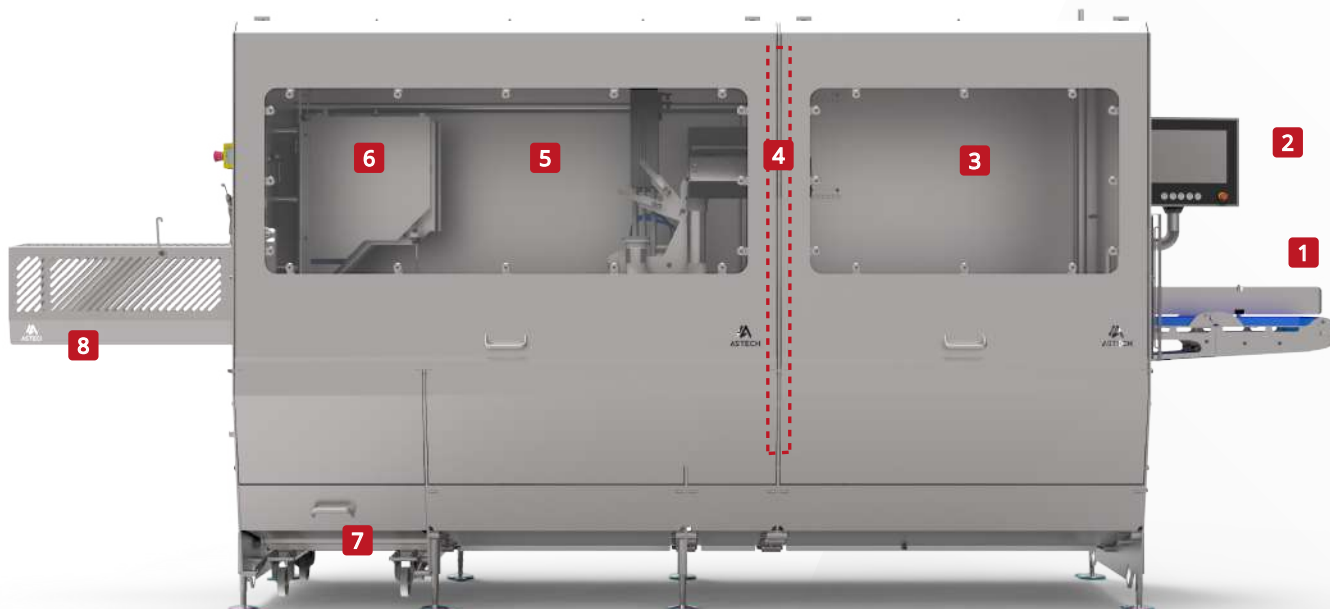

Advantatges

- ▶ Cutting of fresh and frozen meat and fish*, with and without bone.
- ▶ High-precision fixed-weight cutting.
- ▶ Continuous operation, no stoppages are required for loading product.
- ▶ Hygienic design for easy cleaning.
- ▶ Completely safe working process.
- ▶ Bandsaw cutting process (simple cutting).
Fully adjustable cutting speed.
- ▶ Versatile program, easy to use, with the ability to store up to 50 different recipes.

**Following previous study.*

PRECISION EFFICIENCY SAFETY HIGIENE QUALITY OF THE CUT SAVING

Technical information

- ▶ **Machine dimensions (L x W x H)**
4650 x 1300 x 2050 mm
- ▶ **Machine width with open doors (W)**
3500 mm
- ▶ **Max. product dimensions (L x W x H)**
750 x 250 x 250 mm
- ▶ **Compressed air**
Pressure 6 bar (10l/compl cycle.)
- ▶ **Saw blade**
2680 x 16 mm
- ▶ **Machine power**
4 kW

- 1 Product belt
- 2 Touch-screen controls
- 3 Product gripping area
- 4 Product scanner
- 5 Product cutting area
- 6 Bandsaw
- 7 Sawdust collection
- 8 Product output
