

SRA 3.0

AUTOMATIC CUTTING SAW

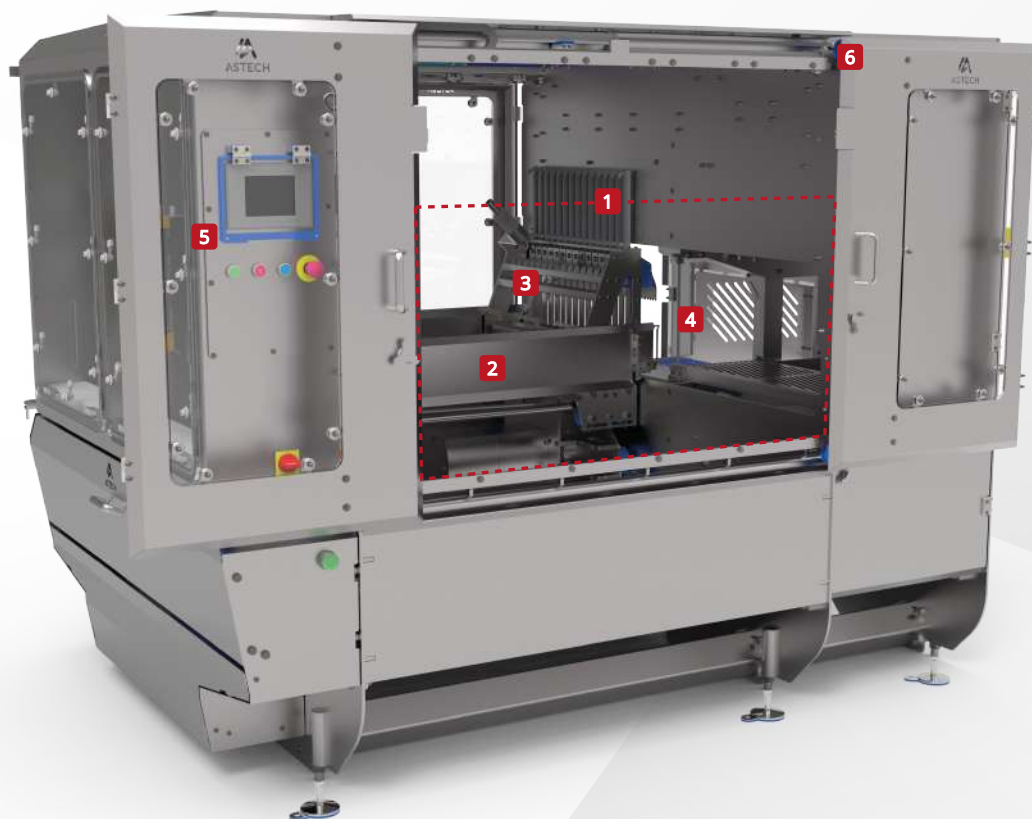

Automatic saw for **cutting frozen and fresh*** products, with and without bone. Compact and robust machine, offering high output per operator, precision in cut thickness and, above all, **maximum safety during use.**

**Following previous study.*

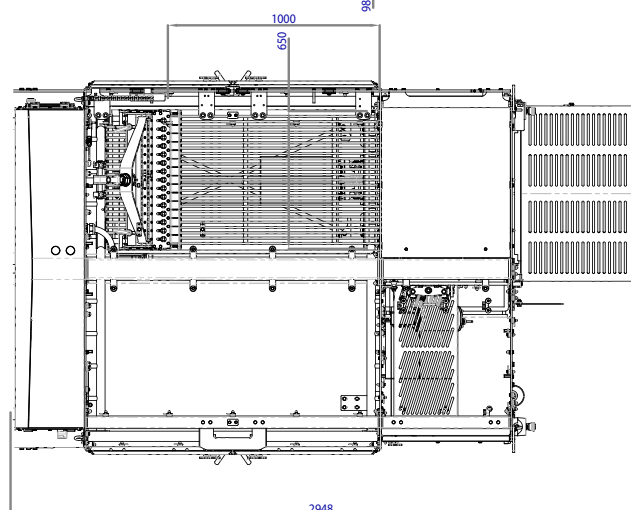

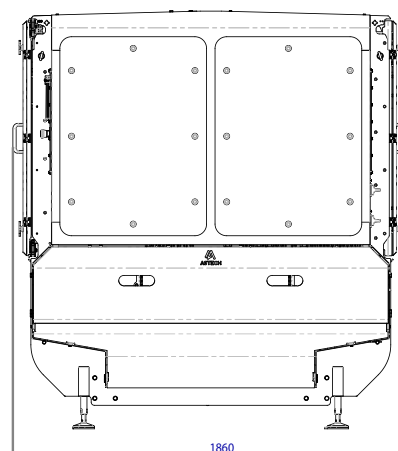

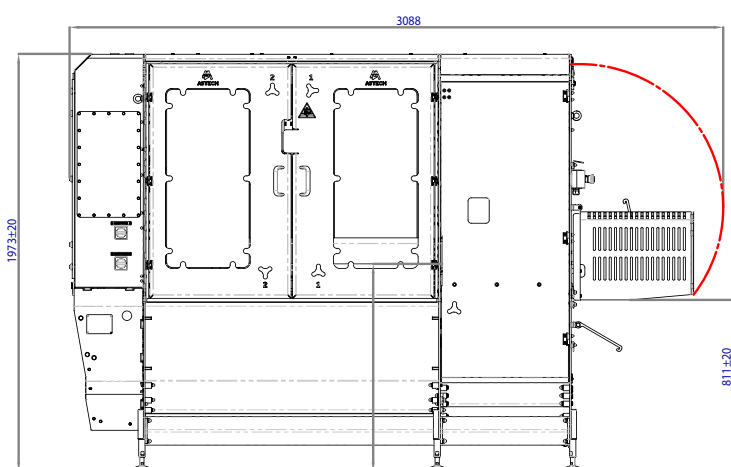

Advantatges

- ▶ Fully adjustable cutting speed with a servomotor.
- ▶ Hygienic design for easy cleaning.
- ▶ Completely safe working process (fully enclosed machine).
- ▶ Optional automatic door opening and closing.
- ▶ The product can be loaded from either side, but not simultaneously from both sides.
- ▶ Bandsaw cutting process.
- ▶ Versatile program, easy to use, with the option of storing up to 50 different recipes.

- 1 Product loading area
- 2 Product loading trolley
- 3 Gripping clamps
- 4 Bandsaw
- 5 Control panel
- 6 Sliding doors

Technical information

Machine dimensions (L x W x H)
2970 (4040) x 1900 (3155) x 1955 mm

Loading area dimensions (L x W x H)
1000 x 650 x 300 mm

Maximum cut thickness
300 mm

Compressed air
Pressure 6 bar
(10,7l/compl. cycle)

Saw blade
2680 x 19 mm

Power
8.2 kW
