

STEALTH[®] In-Foil Metal Detector

OVERVIEW:

Stealth In-Foil metal detectors are custom manufactured to suit any foil packaging application or aluminum casting inspection. The Stealth uses digital signal processing technology and has high sensitivity levels to ensure the detection of the smallest ferrous contaminants, despite the presence of foil packaging. The built-in data collection software with USB data transfer establishes the Stealth as an effective critical control point complying with stringent HACCP regulations.

THE FORTRESS ADVANTAGE:

- **"Never Obsolete"** Commitment: detectors are always supported with parts and services
- Standard electronics configuration across product line allowing easy support and trouble shooting
- Modular design; have fewer components
- Custom built detectors or stock sizes
- **Simple Operation, Outstanding Reliability, Exceptional Performance**

KEY FEATURES:

- Contact Reporter Software Included
- Detailed Data Collection
- Digital Signal Processing Technology
- Ultra Sensitive Detection
- AutoTest: Self Diagnostic Testing
- Automatic Calibration
- System Set-Up in Seconds
- Flash Memory Stability
- Multi-Level Password Protection

APPLICATIONS:

- Foil Tray Packaged Products
- Aluminum Wrapped Products
- Aluminum Casting Inspection

AVAILABLE ADD-ONS:

- Integrated Vector Conveyor Systems

- HALO Automatic Testing System

STEALTH[®] In-Foil Metal Detector

Custom Aperture Sizes

Powerful Digital Signal
Processing (DSP) Technology

Product Library Stores
Multiple Product Settings
for Easy Recall

Multi-Level Password
Protection

User-Friendly
Multi-Language Control
Panel Interface

Auto-balance and
Ultra-sensitivity levels

Automatic Testing and
Calibration

USB Port for access to QA
Reports, Configuration
and Firmware Updates

Sleek Modular
Design for
greater reliability

DETECTOR OPTIONS & SPECIFICATIONS:

Construction

Stainless Steel

Rating

Stainless Steel: Nema 4X / IP69K

Remote Mounting

Display panel terminal can be mounted remotely

Network Communications

Ethernet / Wireless via Contact Communications Software

Electrical

100-240v Single phase, 1amp, 50-60Hz

Simple Operation. Outstanding Reliability. Exceptional Performance.
